

VERMONT

Physician
Executive
Leadership
Institute

JANUARY 2022 ~ NOVEMBER 2022

"I have learned more about myself as well as leadership tools and strategies in 6 months than in over a decade of practice!"
- Elizabeth Hunt, M.D.

"The PELI course has provided an opportunity to connect with and learn from health care providers across the state as we all seek to improve our leadership and management skills. It has allowed me to build relationships and develop skills that are invaluable and not taught elsewhere. This has been an amazing professional opportunity that I highly recommend to any health care provider interested in cultivating their leadership skills."
- Lauren MacAfee, M.D.

MEETING VERMONT'S NEED FOR PHYSICIAN LEADERS

The Vermont Medical Society Education & Research Foundation is proud to announce its third statewide Physician Executive Leadership Institute Foundational Course to begin in winter 2022. This course is offered in partnership with the Daniel Hanley Center for Health Leadership and Lumunos.

Perhaps never before physicians and PAs have been asked to step up and skillfully lead rapid change throughout the COVID-19 pandemic. Every clinician brought their management styles and skills to the forefront to ensure the best outcomes for Vermont patients. VMSERF is pleased to continue an experiential learning opportunity that will enhance and fine-tune the most important leadership skills and concepts for a statewide cohort of Vermont physicians and PAs.

An experienced Hanley Center for Health Leadership faculty member will work with Vermont faculty to deliver national caliber content drawn from multiple sources, including the Harvard Business Publishing online Harvard Manage Mentor resource. The course will include topic-focused modules offered in two 3-hour sessions bi-monthly over a 12-month period of time and four 90-minute focused virtual sessions in the “off months.” In addition, individual and/or small group executive coaching is available to participants. After the completion of the course, participants will continue to meet quarterly with skilled facilitators from Lumunos to apply learnings to real time leadership challenges, while providing peer support.

The physician or PA leader attending this program will benefit from the following:

- ▶ A 40-hour curriculum incorporating online resources of Harvard Business Publishing
- ▶ 40 Category One CME credits (*application in process*) *
- ▶ One-on-one or group leadership/executive coaching
- ▶ Certificate of Completion
- ▶ Four quarterly alumni meetings to process leadership challenges
- ▶ Long standing and supportive networks of colleagues across the state
- ▶ A higher level of personal and professional development

COURSE OBJECTIVES

The Foundational Course Objectives:

1. Equip physicians and PAs stepping into or already in leadership positions with the necessary knowledge and skills to be successful in their leadership roles.
2. Impart the language of business to more effectively influence the healthcare system at the organizational level.
3. Enable physicians and PAs to be better prepared for the paradigm shift from clinical role to include a system view and leadership role.
4. Enhance physicians' and PAs' understanding and provide new tools and skills to improve the relational aspects of managing people and leading teams.
5. Create a trusted statewide cohort - that can be accessed by each other and the system – for leadership support.

SESSION DATES & TOPICS

(Note: Program is prepared to transition sessions currently planned for in-person to virtual if necessary due to social distancing requirements; otherwise all in-person sessions will be held at TopNotch Resort in Stowe.

2022

January 20 (5pm-8pm) & 21 (9am-12pm) Virtual Meeting:

* This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Maine Medical Education Trust and the Daniel Hanley Center for Health Leadership. The Maine Medical Education Trust is accredited by the Maine Medical Association Committee on Continuing Medical Education and Accreditation to provide continuing medical education for physicians. **Services for the disabled.** If special arrangements are required for an individual with a disability to attend this course, please contact Stephanie Winters at swinters@vtmd.org.

APPLICATION & TUITION INFORMATION

Who should attend?

This Foundational Course aims to build a skilled network of physician and PA leaders who have the experience, commitment, and passion to lead initiatives and decisively and effectively respond to emerging crises, transforming and improving health and healthcare systems at local, regional, and statewide levels. Because the course includes a focus on both leadership and management content, it is a good fit for those who would like to build their effectiveness in organizational leadership. Physicians and PAs who have recently assumed or aspire to take on leadership roles are encouraged to participate. It is particularly aimed at individuals with 5 or more years of clinical experience but minimal formal leadership training. The course aims for a cohort of 15-20 physicians and PAs from across Vermont.

Application process:

Individuals interested in attending should submit a CV and brief description of their interest to swinters@vtmd.org. Please note that some hospitals or practices may have their own process for nominating and selecting candidates. You should inquire with your CMO or practice leader.

Application deadline: November 19th, 2021.

Tuition:

The cost of the course is \$4,900. This includes tuition and meals for the year long program. This does not include the cost of an overnight hotel room for the four, in-person two-day sessions. Please contact swinters@vtmd.org to discuss scholarship needs or payment plans. (Note: VMS ERF is applying for grant funding, which if obtained, will be used to reduce tuition and hotel costs.)
