

1 VERMONT MEDICAL SOCIETY RESOLUTION

2 Regulation of Cannabidiol (CBD)

3 *As adopted at the VMS Council Meeting on Sunday, Nov. 3, 2019*

4
5 **RESOLVED**, that VMS support the distribution of evidence-based information to the public and
6 clinicians regarding cannabidiol (CBD), including potential health risks of its use such as
7 increased hepatotoxicity and drug interactions; and be it further

8
9 **RESOLVED**, that VMS oppose and work to increase enforcement against the false advertising of
10 non-FDA approved CBD for therapeutic or medical purposes, and be it further

11
12 **RESOLVED**, the VMS support enforcement of current federal law under which CBD is only
13 available as an FDA-approved drug; and be it further

14
15 **RESOLVED**, that VMS support regulation of the manufacture of CBD that protects human
16 health including requirements that it be free of contaminants including mold, heavy metals and
17 pesticides; has reliable active drug concentration of cannabidiol; that it contain no more than
18 trace amounts (0.3% or less) of tetrahydrocannabinol (THC); that it not be added to food,
19 especially that is attractive or appealing to children; and that it not be fed to livestock.
